

Crystal Naegle

**HVAC Assistant Coordinator
UA Local 525
Las Vegas, Nevada**

Crystal Naegle took on the job as the UA Local 525 HVAC Assistant Coordinator in August 2022. She studied Air Conditioning at Vo-tech High School and graduated in 2006. While employed with Arrow Air Conditioning during high school and college, Crystal learned everything she could—from dispatching, accounts payable/receivable and payroll to HVAC install, maintenance and service. She graduated in 2008 with an AAS from the College of Southern Nevada (CSN) in Air Conditioning Technology and is currently working on a bachelor's degree in HVAC Engineering Technology from Ferris State University. After serving as a long-term substitute teacher and then as a high school temporary HVAC teacher position for six months, Crystal became a full-time HVAC instructor at CSN in 2011, teaching high school as well as college students for over ten years. She has held multiple positions over the years including instructor, HVAC lead, program director (multiple disciplines) and department chair of 13 programs during the COVID pandemic. Crystal claims she is a jack of all trades, master of none, but always working on it.
