

Alison Sexton Ward, Ph.D.

Research Scientist

**Leonard D. Schaeffer Center for Health Policy & Economics
San Francisco, California**

Alison Sexton Ward is a research scientist at Leonard D. Schaeffer Center for Health Policy & Economics at the University of Southern California. She is also an economist with extensive experience in health care policy and pharmaceuticals. Her research has focused on economic valuations of various therapies and drug classes as well as the economic implications of drug pricing policies. Alison has worked with pharmaceutical manufacturers, government agencies and non-profit health organizations on drug pricing policies, social value of new treatments and long-term survival prediction. Prior to USC, she designed and led economic analysis in support of health-related litigation at the Brattle Group. She holds a Ph.D. degree in applied economics from the University of Minnesota; an M.S. degree in agricultural and resource economics from the University of California, Davis; and a B.S. degree in managerial economics from the University of California, Davis.
